EMPLOYMENT HISTORY

1997 - Present President, The Bristol Observatory

Founding partner and Director of Research. Responsible for coordination of data management and analysis, supervision of report preparation, and day-to-day operations of a contract research organization which provides data analytical services, consultation/education on the interpretation of quantitative research results, and report preparation services. Clients include state, federal, and private agencies and research organizations. Services are provided in support of rational data-based decision making in human service organizations by providing valid and reliable measures of the functioning of systems of care. These measures are based, primarily, on analysis of information stored in administrative and operational databases.

1982 - Present Mental Health Research and Statistics Chief
Vermont Department of Mental Health, Waterbury Vermont

Responsible for service system research and program evaluation in a statewide system of care for children and adults with a strong emphasis on using existing data from multiple service sectors resources for program and service system evaluation. Topics of evaluation research include employment, hospitalization, criminal justice involvement, and health care utilization. Brief data reports are prepared and distributed to a community of more than 300 interested parties on a weekly basis.

1979 - 1982 Director of Research and Evaluation
Washington County Mental Health, Montpelier, Vermont

Managed state and federally funded research projects, including studies of alcohol treatment effectiveness, monitoring client satisfaction, training needs assessment, and evaluating the delivery of emergency mental health services.

1975 - 1978 Assistant Professor of Sociology
Middlebury College, Middlebury, Vermont

Taught introductory Sociology and Social Problem. Designed and taught courses in Criminology, Sociology of Law, Technology and Social Change, and Social Psychology
